

INSTITUTE FOR AEGEAN PREHISTORY

2023 APPLICATION FOR INSTAP PUBLICATION TEAM GRANT

Excavation directors may apply for technical archaeological services for preparation of their publications. Projects that are finished with excavation and are preparing material for publication are eligible. Your project need not have received basic support from INSTAP to qualify for a Publication Team Grant.

In this grant program, INSTAP provides specialists who are based at the INSTAP Study Center for East Crete (SCEC) in one or more of the following categories: artist for pottery and small finds, conservator, photographer, petrographer, or services of a ground penetrating radar (GPR) team.

INSTAP provides the salary for the specialists assigned to the project. The excavation director should provide the place to work and should arrange for permits, working space, and other facilities.

Applications should be sent to the director of the INSTAP SCEC, Dr. Thomas Brogan: tombrogan@instapstudycenter.net and Karen Vellucci: instapapplications@gmail.com.

The excavation director is expected to supervise the team members' work and to provide INSTAP with an evaluation of the progress of the publication. Team members may work either during the summer or during the academic year. A complete and detailed budget for the publication work should accompany a description of the work to be done in the attached application form.

There is no specific deadline for this class of application. Please apply at least 2 months or more prior to the start date.
